## POSITION SPECIFICATIONS

### 2nd Class Power Line Technician

**Education:** High School diploma or equivalent required. Additional training in Basic Electricity desirable. Should be able to successfully complete appropriate technical schools in order to perform position requirements. Electrical Lineman Certification through an approved apprenticeship program preferred.

**Experience:** Four years of electrical distribution experience through direct line or service work required or completion of an approved electrical lineman apprenticeship program. Experience in personal computers required.

**Job Knowledge:** A thorough knowledge of both overhead and underground construction and maintenance of distribution lines. Knowledge of Cooperative's policies and procedures on service and collections. Understanding of RUS Construction Specifications, the Cooperative Safety Manual, The National Electric Safety Code, and OSHA Rules and Regulations. Certification in First Aid and CPR/AED preferred. Must have pole climbing, pole top rescue and bucket rescue certifications. Should be thoroughly familiar with system routes and geography.

**Abilities and Skills:** Should be able to perform all activities required in the maintenance of distribution lines. Must have the ability to do switching in sub-stations in accordance with prescribed procedures. Must be able to identify and solve service problems. Must be able to organize work to meet deadlines. Should be able to work independently under pressure. Good communication skills required with consumer-public in resolving complaints. Must have a valid North Carolina Commercial Driver's License. Must be physically able to perform the duties of this position such as utility pole climbing and some heavy lifting.

**Working Conditions:** Subject to call 24 hours per day, including weekends and holidays. Subject to work in all kinds of weather. Subject to long periods of work without rest until service is restored. Subject to contact with unfriendly animals and irate consumers. Subject to having to work in long rubber gloves and sleeves in direct contact with energized lines.

Applicants chosen will be subject to a medical examination, drug screen, and criminal background investigation.

**Interested applicants should forward an LREMC application and resume with a cover letter to:**
